STATINTL

SUBJECT : SSC/HSC Request

RECEIVED: Date _____ Time _____

In order to respond to Section III, Individual Files, of the 31 July 1975 SSC letter. The Review Staff requests that all independent offices and directorates review their file holdings for any files on the ten persons of interest. A list of identified files, describing their content, size, purpose and numerical identification, if any, should be forwarded to the Review Staff.

Files for purposes of this request should include desk or soft files as well as those officially registered with a file repository. They should not include library type research materials such as Who's-Who; Dunn and Bradstreet etc.

Comments: Although this request was not discussed at the 20 August Task Force meeting, it is similar to the one on cooperating companies and just as necessary to fulfill the Agency's obligation to SSC letter of 31 July.
